### Terms & Conditions

#### Terms and Conditions for Use of Cisco Networking Academy Websites and Services

- 1. Background.** The Cisco Networking Academy learning platforms are websites ("Websites") within the Cisco Networking Academy Program ("Program"). Cisco operates and provides access to a range of Program related websites and microsites accessible to users (including students, nonstudents and alumni) who have a Cisco Username and Passwords. Websites contain content relevant to the Program and are also designed to enable social networking and collaboration ("Services") among users. The Services enable a user to create personal profiles (each, a "Profile") that can be searched and viewed by other users. The Services also support discussion forums, chat, electronic messaging, survey tools, blogs, wikis or other collaborative tools that Cisco elects to make available in its discretion. Cisco may modify, enhance, restrict or terminate Websites and Services in its discretion at any time and without notice.

**The Program operates in accordance with global privacy laws, including laws that impact children's privacy. Registration or use of the Program is not intended for children. For the purposes of the Program, we consider an individual to be a child if the applicable law limits the processing of an individual's personal data because the individual is under a certain age (for example, individuals under 13 years of age**

My Knowledge Check

Check your Skills  
Introduction to Cybersecurity

Before you start the course, answer questions to check how much you already know.

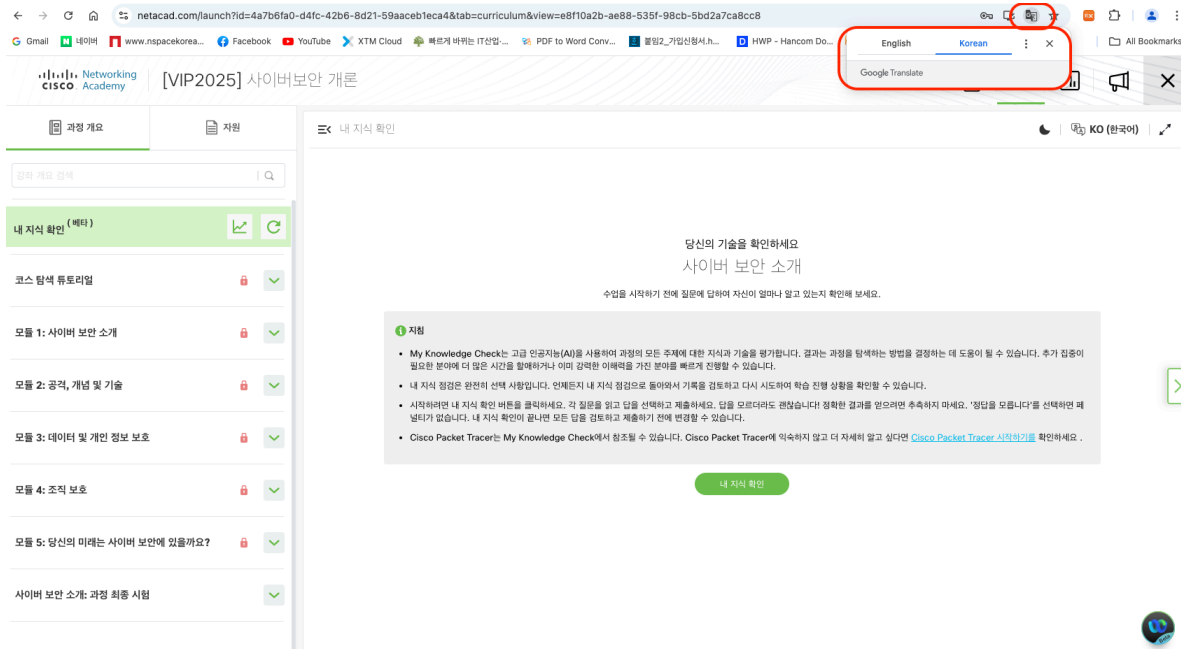

**Instructions**

- My Knowledge Check uses advanced Artificial Intelligence (AI) to assess your knowledge and skill on every topic in the course. Your results can help you decide how to navigate through the course. You may choose to spend more time in areas where you need additional focus or speed through areas where you already have a strong understanding.
- My Knowledge Check is completely optional. You can come back to My Knowledge Check anytime to review your history and take it again to see your learning progress.
- Click the My Knowledge Check button to begin. Read each question, select your answer, and submit. If you do not know an answer, that's ok! To get accurate results, try not to guess. Simply choose 'I don't know the answer' and there is no penalty. At the end of the My Knowledge Check, you can review all your answers and make changes before submitting.
- Cisco Packet Tracer may be referenced in My Knowledge Check. If you are unfamiliar with Cisco Packet Tracer and curious to learn more, check out [Getting Started with Cisco Packet Tracer](#).
